

12 MATEMČEK

KOCKA - LEVO DESNO SPREDAJ

NAVODILA IN PRIMER NALOGE

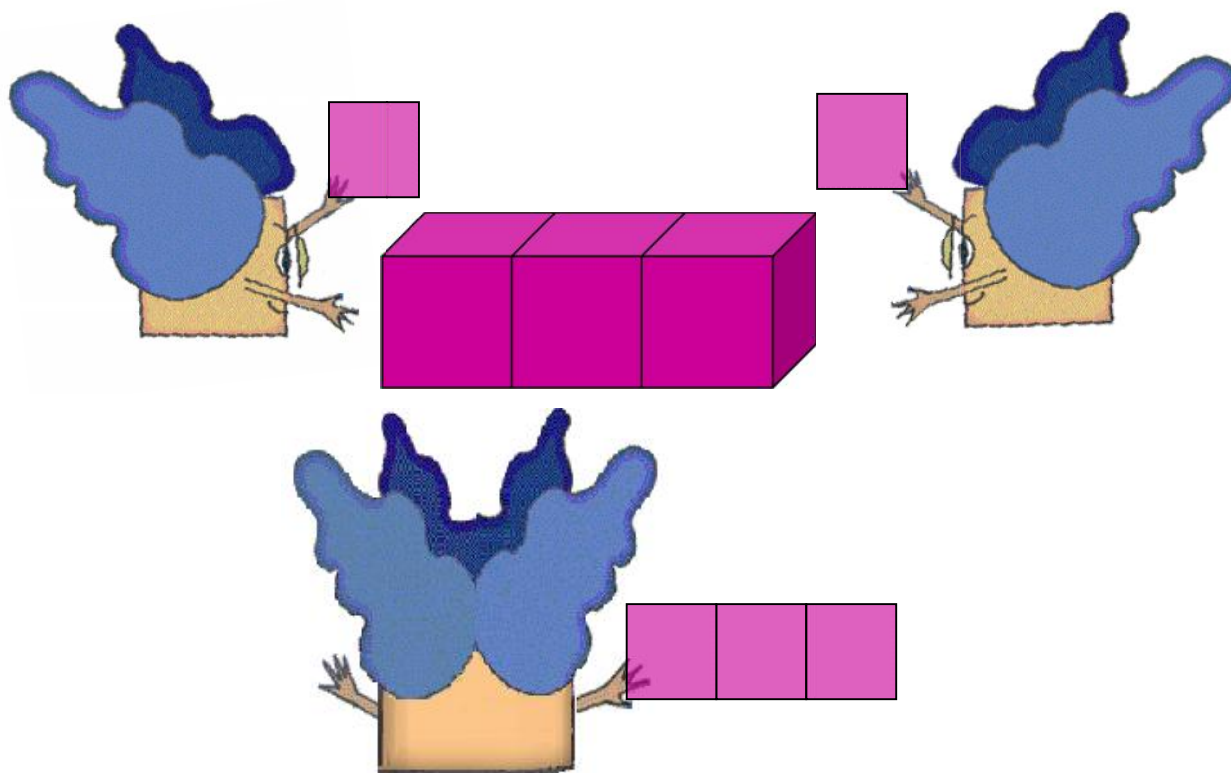

Matemčki, z žepi polnimi oblik iz kvadratov, opazujejo sestavljanke iz kock. Ogledujejo si jo s treh strani: od spredaj, z leve in z desne strani. Kar Matemčki vidijo, brž pokažejo profesorju Matemčku. Iz žepa izvlečejo pravo obliko, jo pravilno obrnejo, in mu z njo pomagajo. S katero in kako obrnjeno obliko pomaha vsak Matemček? Nariši jo.

MATEMČEK

KOCKA - LEVO DESNO SPREDAJ

Matemčki so z igro nadaljevali še dolgo po tem, ko je profesor že odšel...
